

We are all facing an unprecedented situation as a nation and as an industry. We took the decision after prime minister Johnson's speech to shut down manufacturing and fitting at Custom Creations.

We feel as part of a whole national effort to stop the spread of covid-19 (coronavirus) that this is a must for the safety of our customers and our staff and is the responsible way forward.

As a small family business, we have not stopped since the company started, so this was an incredibly difficult decision but a no brainer especially when you look at the what our brave NHS are going through. We all need to do whatever we can do to help stop the spread and care for our vulnerable and elderly.

Going forward as a business I felt it was important to let our customers and potential customers know the safeguarding and actions we are taking in order to get through this and have a strong and prosperous business after we get back to some form of normality.

**We can still be contacted during this time as our office staff will be continuing to work from home, and we encourage you to do so as we are happy to help! If you have any enquires, or you would like a quote or to find out more, please contact our team on [email](#), using our [contact form](#), or calling on 01202 823231.**

#### STAFF:

We have a loyal and incredibly talented team of joiners and fitters, machinists and office staff, and as a family business we have a sense of our team being an extended family.

All our employees are being kept on and paid; this has been helped by the government's 80% support for wages.

It's so hard to come across reliable, skilled and loyal staff and one of our main priorities is looking after them as they have looked after us. I just wish some bigger corporations took similar actions!!

I'd like to take this opportunity to thank them all again for the hard work and understanding.

#### CURRENT JOBS:

We spent Tuesday moving all our jobs booked in from now to late June, and sliding everyone forward 4 weeks, so we will be starting up again on the 21st of April pending government advice.

Everyone has now had new dates given and we have sent new dates via post. We did have to leave 3 jobs incomplete for when we return but we made the rooms safe and habitable until our return.

I would like to take this opportunity to send a huge thank you to all of our customers currently booked in, for their understanding and the amazing comments and sense of national spirit, and we thank you so much for choosing Custom Creations and for also sticking by us.

#### STOCK:

Going forward we have ordered stock in and board to keep us going after we get back to some normality. Although most of our suppliers have now shut, as I write this they will also be opening at the same time and

have sufficient stock levels to keep us going for the foreseeable future on our return (pending government advice).

#### NEW CUSTOMERS AND ENQUIRIES:

WE ARE STILL OPEN BEHIND THE SCENES!! Myself, James, and Jo, Hannah and Sophie will all be working from home answering enquiries and calls to our 01202 823231 office number as usual.

We are still taking bookings for design appointment for when we return, alternatively I have set up an at home design service.

If you require a quote or wish to get the ball rolling on a project for when we return, please [contact us](#) and send the below:

If you can send a picture of the space and measurements as best you can to [office@customcreations.furniture](mailto:office@customcreations.furniture) and your contact details, we can get to work on ideas and plans for you. Then, when we return, we can look at samples and colours in our Verwood showroom. In the meantime, there is also lots of pictures on our [gallery pages](#) and [Facebook](#).

#### GOING FORWARD:

We are in a good position as company financially to take and also complete orders, through sensible business actions and also sensible precautions we have always taken since trading as, although this particular situation is unthinkable, situations and economic turmoil does happen.

The steps we have taken as a business allows us to come back as strong as we left and help to start the repair to our economy as soon as we possibly can.

We look forward to getting back to normal and facing the challenges that face us as a company but also working together as a nation to the challenges that immediately face us.

Please stay safe and stay home when you can and keep positive.

Kindest wishes,

James, Jo, Simon, Hannah & Sophie and the team
